Dear Ms Jamieson,

This is simply to reiterate the concern that you seem unconcerned that the Ontario Ministry of Health continues to allow persons disabled by environmental sensitivities to be subjected to physical and emotional abuse in facilities owned and operated by the province.

As indicated by your staff, you are able to initiate an investigation on your own initiative. You have not done so but have, instead, responded to concerns other than the one raised in the more than five years that you have been approached.

It is tragic when authorities such as your own ignore ongoing horrific abuse of persons unable to defend themselves. As you know, I am particularly concerned about psych patients whose problems are caused or exacerbated by sensitivities who are not being screened out of the general psychiatric population.

Sincerely,
